

StreamlineMD EHR Version 15.0

170.315 (b)(10) Electronic Health Information Export

Summary

StreamlineMD, LLC is a wholly owned subsidiary of PRC Medical, LLC. We are a technology-enabled business service company serving the healthcare industry. Specifically, we offer cloud-based clinical workflow and revenue cycle management technology and services tailored to meet the specific workflow and business needs of imaging and image-guided procedure specialists, to improve their practice and business performance and help them prosper.

170.315 (b)(10) Electronic Health Information Export

- StreamlineMD EHR Version 15.0 allows clients to export Clinical or Healthcare data for patient records without the intervention of software developers. The data may be exported as a C-CDA or PDF document. The Electronic Health Information (EHI) export may be done for a single, multiple, or entire patient population using C-CDA United States Core Data for Interoperability (USCDI v1) requirements. More information on USCDI v1 may be obtained from the below URL: <https://www.healthit.gov/isa/united-states-core-data-interoperability-uscdi#uscdi-v1>
- The use case for export may be for Single, Multiple, or All patient records.
- The Electronic Health Information may be exported in C-CDA, PDF, or both formats. The client shall select the folder in which the intended data needs to be exported.
